ASSUNTO: Requerimento n.º 621XII (BE) – “Juros de mora a pagar pela Região Autónoma dos Açores à EDA – Eletricidade dos Açores, S.A.”, apresentado pelos Senhores Deputados António Lima e Vera Pires, do Grupo Parlamentar do Bloco de Esquerda

Em resposta às questões colocadas no requerimento referido em epígrafe, subscrito pelos Senhores Deputados António Lima e Vera Pires, do Grupo Parlamentar do Bloco de Esquerda, cumpre-me informar V. Ex^a. do seguinte:

1- Com a aplicação da taxa de juro de 4%, qual o valor recalculado dos juros referentes à primeira tranche, no valor de 2M de euros pagos no final de 2020, a que inicialmente tinham sido aplicados 1,008.908 euros em juros?

O recálculo previsto na Resolução do Conselho do Governo n.º 136/2022, de 5 de agosto ainda não foi efetuado pela EDA.

O Governo dos Açores, após ter notificado a EDA do conteúdo da Resolução atrás referida, esta empresa remeteu parecer jurídico não coincidente com o parecer emitido pelo Prof. Dr. Eduardo Paz Ferreira, razão pela qual foi solicitado em 23.01.23 parecer do Conselho Consultivo da Procuradoria-Geral da República “relativamente à legalidade da cobrança por parte da EDA – Eletricidade dos Açores, S.A de taxa de juros supletiva, atualmente de 7% ao ano, no âmbito do acordo de pagamento celebrado entre a EDA – Eletricidade dos Açores, S.A e a Região Autónoma dos Açores, com vista à regularização de uma dívida de € 6.550.935,98

referente ao não cumprimento da obrigação de pagamento da iluminação pública entre 2012 e 2020”.

Aguarda-se desde esta data o referido parecer, tendo sido efetuadas insistências junto da PGR para obtenção do referido parecer.

2- Qual o valor de juros pagos relativos à 2ª tranche de 2 M euros, a ser paga até final de 2021, e qual o valor de juros que resultariam se o cálculo fosse efetuado de acordo com os critérios aplicados inicialmente à 1ª tranche (calculados à taxa de juro comercial, ou seja, entre 7 % e 8 %, seguindo a Recomendação n.º 1/2020 da Entidade Reguladora dos Serviços Energéticos -ERSE)?

Não foi efetuado até à presente data o pagamento de juros de mora relativamente às prestações pagas em 2021 do acordo de pagamento considerando que foi aplicado pela EDA a taxa de juro comercial, contrariamente ao definido na Resolução do Conselho do Governo n.º 136/2022, de 5 de agosto. Importa referir que os juros de mora são faturados conjuntamente com os consumos mensais de cada contrato, não existindo uma fatura exclusivamente de juros de mora relativos ao acordo de pagamento celebrado em 2020.

3- Qual o valor de juros pagos relativos à 3ª tranche de 2 550 935,982 euros, a ser paga até final de 2022, e qual o valor de juros que resultariam se o cálculo fosse efetuado de acordo os critérios aplicados inicialmente à 1ª tranche (calculados à taxa de juro comercial, ou seja, entre 7 % e 8 %, seguindo a Recomendação n.º 1/2020 da Entidade Reguladora dos Serviços Energéticos -ERSE)?

Não foi efetuado até à presente data o pagamento de juros de mora relativamente às prestações pagas em 2022 do acordo de pagamento considerando que foi aplicado pela EDA a taxa de juro comercial, contrariamente ao definido na Resolução do Conselho do Governo n.º 136/2022, de 5 de agosto.

REGIÃO AUTÓNOMA DOS AÇORES
Secretaria Regional das Finanças, Planeamento e Administração Pública

4 - Existem à data atual pagamentos em atraso à EDA referentes ao pagamento da iluminação pública? Se sim, solicita-se os valores em atraso e a sua desagregação por fatura e data.

Em anexo, junta-se listagem com o montante em dívida a 31 de abril de 2023 referente aos consumos com iluminação pública nas estradas regionais dos Açores.

Importa aqui esclarecer que estes consumos não têm sido pagos porque as faturas de iluminação pública contêm juros de mora à taxa de juro comercial, ao contrário do estabelecido na Resolução do Conselho do Governo n.º 136/2022, de 5 de agosto, ou seja, a aplicação de uma taxa de juro civil de 4%, como se pode verificar nos documentos que se remetem a título de exemplo. A EDA foi questionada relativamente à possibilidade de a faturação dos juros ser separada das faturas do consumo a fim de não comprometer o pagamento dos consumos mensais com iluminação pública, tendo a empresa alegado que o sistema contabilístico não o permite, o que impossibilita o Governo Regional de cumprir com as suas obrigações no que se refere ao consumo corrente, porque não pode pagar uma importância que não corresponda ao valor total da fatura (consumo e juros).

Com os melhores cumprimentos,

O Secretário Regional das Finanças, Planeamento e Administração Pública
