**Assunto:** Proteção do Mar dos Açores

Dear Sir or Madame

As a citizen and member of civil society, I would like to express my strong opposition to the proposal to downgrade fully protected marine areas in the Azores.

These areas are essential for the regeneration of marine life, the sustainability of fisheries and in particular for the protection of wildlife that depends on these ecosystems to survive.

Opening the door to further exploitation is a short-sighted move that ignores scientific consensus and undermines our shared responsibility to future generations.

With kind regards

Reto
